

AMENDMENT TO CLAIMS

List Of Claims:

This listing of claims will replace all prior version, and listings, of claims in the application:

Claims 1-21 (Canceled)

Claim 22 (New): A relay apparatus for delivering video stream data from a server to clients via a network, comprising:

a connection management device adapted to establish a connection to a server in response to a request from a first client, and to deliver video stream data to the first client, and
a memory control device adapted to store the video stream data from the server in a memory,

wherein said connection management device delivers the video stream data stored in said memory to the first client without starting a new connection between the first client and the server, in case that a connection between a second client different from the first client and the server has been established.
